- 2:47: Other than direct donations, how do you fund your organization? Answer: Events, trip donations, yard sales.
- 2:50 Hansi affirms: Thank you for our work in derelict gear recovery and ramp gear monitoring, Jamestown S’Klallam Tribe would be interested in partnering for these activities.

### **Carlsborg Water System Expansion Update and Deep Well Water Right Update**

- 2:56: Existing PUD water rights, additive water right application
- 2:58: Basis of Mitigation Concept
- 2:59: Mitigation Concept v1
- 3:04: Mitigation Concept v2
- 3:10: Mitigation concept v3
- 3:15 Expansion of Carlsborg water system: Primary goals are the continuation of PUD’s mission, Perfect the PUD’s water rights within Carlsborg region.
- 3:18: Phase 1: Connecting Van Lan well site to existing Carlsborg water system, Phase 2: Install pump infrastructure at Van Lan well site.
- 3:20: Carlsborg Water System growth overview

### **Questions:**

- 3:23: Average depth of the 4 aquifers. Bowen answers: existing wells are 200’
- 3:25: Where is the non-point source nitrate pollution that is affecting the area west of the Dungeness River? Who is the lead agency in finding and solving the water pollution problem? Bowen answers: This problem affects all agencies involved in DRMT
- 3:33 Is there leak detection equipment that you are using or can borrow? Bowen answers: We do have leak detection equipment, but there is water loss in other areas that is not from leaks.
- 3:36 Hansi asks: Is the state Dept. of Health trying to find the sources of nitrate pollution that is affecting the Dungeness region?

### **Other Orders of Business, Standing Agenda Items, Announcements**

- 3:48: Tony: Streamkeepers volunteer opportunity announcements
- 3:49: Rhiana Barkie: Water Users: Revised framework, currently in the RFI process of the hazard mitigation FEMA grant that would fund the majority of the proposed Dungeness Off-Channel Reservoir

### **Questions:**

- 3:50: Why can’t Dungeness HOA become a member of OCR Workgroup? Why can’t I attend as a guest? Are there recordings of the meetings? How far along is the FEMA grant?

- 3:52: Answers: Rhiana Barkie: The FEMA grant is in the RFI process of setting a timeline and working out details. Steve Gray: The OCR Workgroup meetings are staff level meetings without too much new information for the public. All new information is publicized, for example in a recent meeting with the Dungeness Home Owners Association, and meetings are recorded.

#### **Other Orders of Business, Standing Agenda Items, Announcements**

- 3:56 Cathy Lear: Update on Dungeness Floodplain Restoration site, there will be a person monitoring the site for native bees.
- 3:58: Shawn Hines: February agenda includes two presenters: Cheryl Baumann for NOPLÉ update, Meggan from the City for a reclaimed water projects, 2024 DRMT calendar: Groundwater status, nitrates, county comprehensive plan update, watershed drought preparedness.
